## PROFILE

I am a focused and motivated learner with a solid background in programming and web development, including expertise in HTML, CSS, JavaScript, Python, and C. Additionally, I've worked with Photoshop for creative design. Known for my ability to work well with others, lead others, and remain composed under pressure, I work hard to keep learning new things and make valuable contributions in group settings. I can't wait to use my abilities in practical projects and advance my career in the creative and tech industries.
